EXPERIENCE

UX Designer / Pethealth Inc.

Oakville, ON / September 2020-Present

- Lead accessibility project with a third-party vendor to ensure product website met AODA compliance which included; making business decisions and solving problems as they arose. Additionally, completed thorough accessibility audits per WCAG 2.1 for the company's digital properties
- Collaborated cross-functionally with marketing, communications and development teams, IT, and outside vendors to deliver solutions including prototypes and functionality requirements
- Developed and implemented rebranded digital style guides to be used across the organization for five brands
- Responsible for mentoring junior UX Designer on project requirements, design thinking principles, and software.

UX/UI Designer / Surrey Place

Toronto, ON / August 2018-September 2020

- Lead user testing sessions, analyzed findings and provided design updates and recommendations to further projects
- Interviewed stakeholders (including internal staff, partners and end users) and translated requirements into research needs, prototypes and testing
- Assisted with the development and implementation of system modernization including Dynamics365 CRM
- Designed interfaces to enhance user experiences for both new and existing mobile and web applications

Interactive and Technical Media Writer Intern / Rapid7

Toronto, ON / May 2017-September 2017

- Guided users through UI by contributing to company's software help documentation
- Collaborated with multiple teams to create documents that outlined in-product features
